## The **NEW AVENGERS**

But made with the same loving care and expertise, the same glossy production value made it the most successful British show in 120 (yes, 120!) countries around the world.

The show still running, still pulling a huge audience in the States.

## The **NEW AVENGERS**

How new? Well... John Steed - alias Patrick MacNee - is still helming the show. Still donning his bowler and gripping his umbrella and setting out to fight the world - jauntily, humourously, his way - the

avengers way - with style. And pace. And action...  
Like you never saw before!

## The **NEW AVENGERS**

Introducing a brand new girl!  
Joanna Lumley (we call her "purdey")  
She's new. She's sensational.  
With a brand new fighting style (we call it "panache")  
and a brand new partner Gareth Hunt (we call him "gambit")

A new show - so new it's going to make every rival look old fashioned.  
new stars. new concept. new action.  
new - new - new.  
(we call it the new avengers!)
